THE SMART CHOICE

I-CAR® is redefining the Gold Class Professionals™ and Platinum Individual™ designations to help meet the collision industry's changing needs. This new approach emphasizes tested and ongoing training while simplifying the requirements and can easily be remembered with "5&2, 10&2."

Effective January 2007, for a business to qualify for the Gold Class Professionals program, each employee must have earned 5 tested points. To qualify for the Platinum Individual program, you must have earned 10 tested points. To maintain either designation, 2 points of ongoing training will be required every year.

All active Gold Class Professionals and Platinum Individual designees (as of January 2007) will be "grandfathered" into the new requirements and will only need the 2 points of ongoing training annually to maintain their status.

If you are currently working towards your Gold Class Professionals or Platinum Individual qualifications, you may want to consider qualifying before January 2007 by using the current position-related point requirements. Then, you will only need the 2 points of ongoing training annually to maintain the status.

All points can be earned through the following training deliveries:

- I-CAR Live (Enhanced Delivery)
- I-CAR Online (self study)
- I-CAR Qualification Tests (hands-on)
- Virtual Classroom (internet)
- Collision TV (satellite)
- Industry Training Alliance Providers
