## Hold Harmless Agreement

The undersigned participant is enrolled in the I-CAR Automotive Steel GMA (MIG) Welding Qualification Test which is conducted by the Inter-Industry Conference On Auto Collision Repair. This program offers an opportunity to demonstrate GMA (MIG) welding skills under controlled conditions. It also provides an opportunity to display a certificate as evidence of having demonstrated these skills. Because I-CAR is a not-for-profit organization, the participant understands that it is important for I-CAR to limit its potential legal liability for events over which it has no control.

Therefore, in the event that the participant receives a certificate of qualification for passing the test, she/he hereby agrees to hold I-CAR and its officers, directors, members, test administrators, and employees harmless against all claims, losses, and expenses that may arise from the participant's acts or omissions in performing GMA (MIG) welding tasks.

By filling out this form and taking this test, the participant understands that I-CAR maintains records which may be released to industry-related parties upon reasonable request.
